

A New **Workflow** for **Language** Learners

The Problem

Language learning shifted to phones, but reading **foreign** text on **desktop** is stuck in the past—broken by complex **conjugations** and poor **recall**.

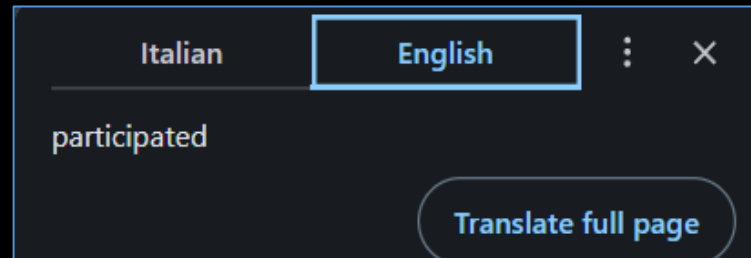

- ① **Slow** – Switching tabs to google is inefficient.

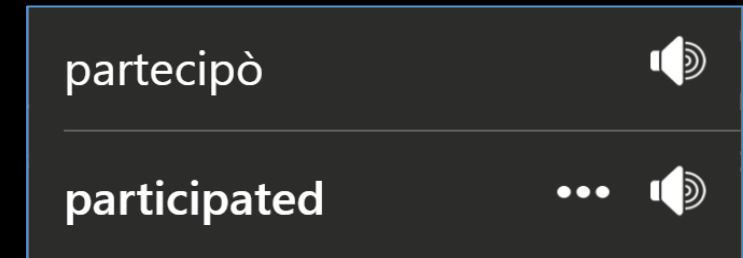

- ② **Passive** – Existing translators do not display conjugations.

&

- ③ **Forgetful:** Zero active-recall means users are not learning the verbs & words they look up.

Google

Mate Translate

The Solution ConjuMate

A browser extension that creates a new learning workflow.

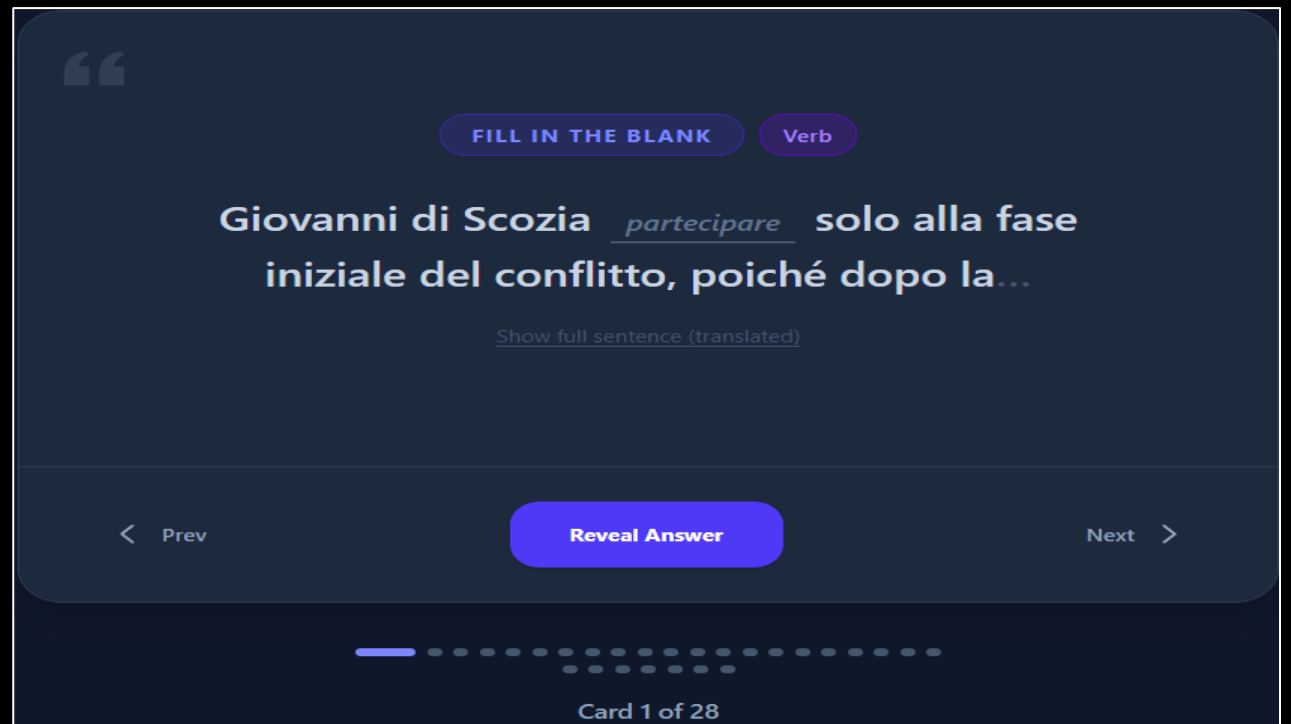

1

Conjugations and translations (across all tenses) in a hovering overlay on the same webpage

2

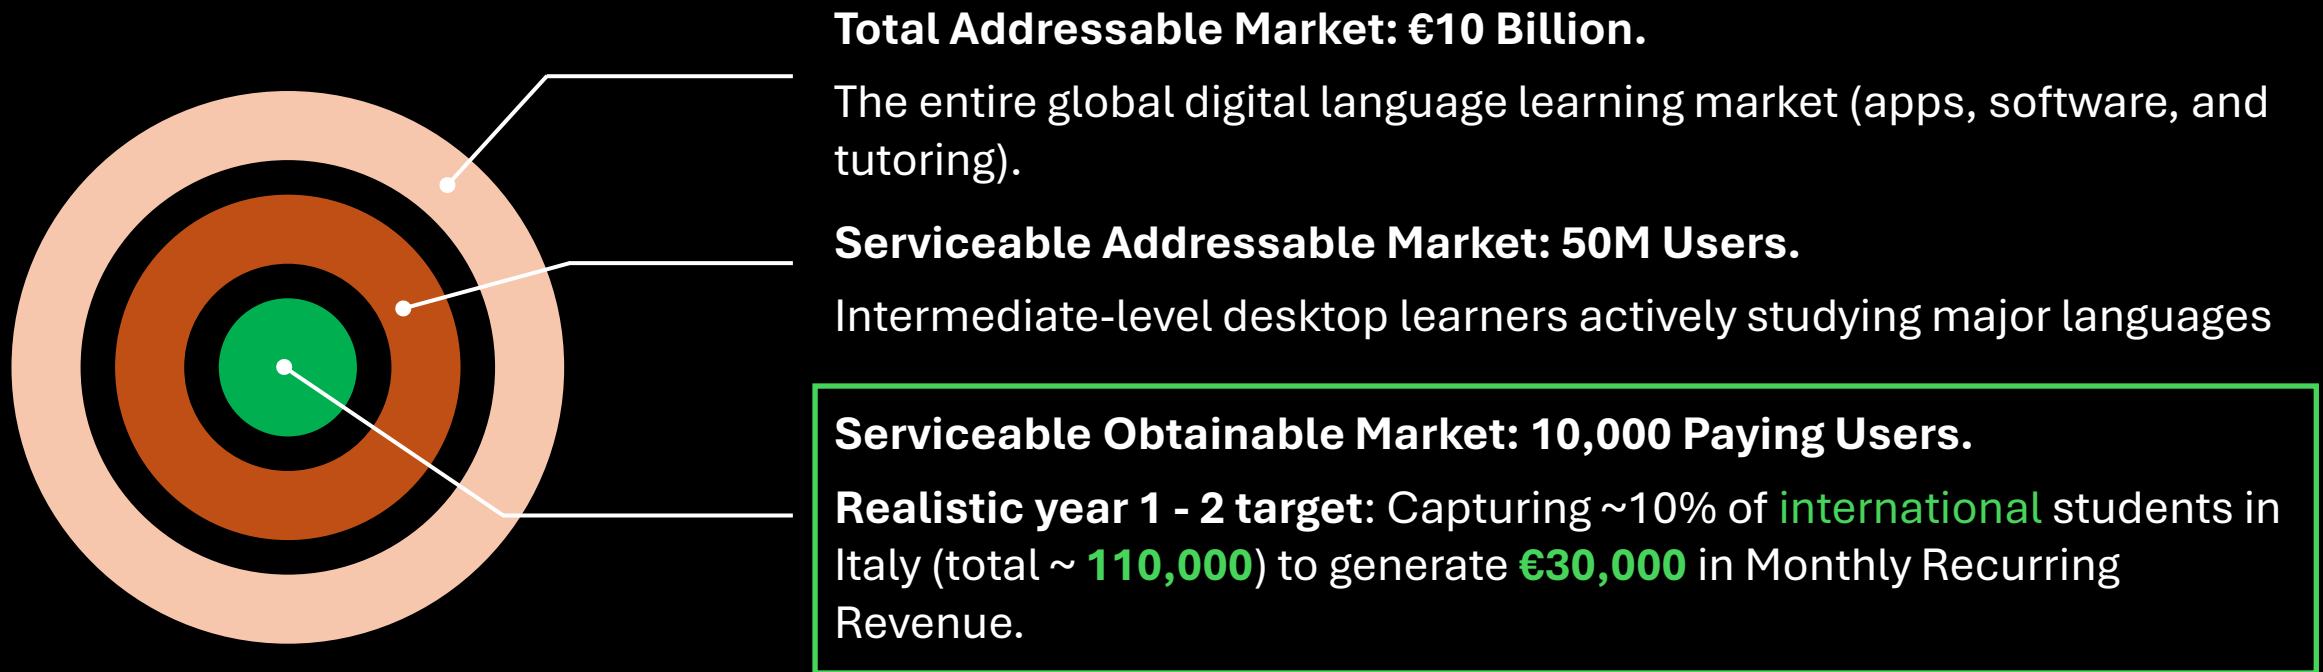

We automatically save the word and its exact real-world sentence, then use it to create personalized spaced repetition quizzes. Accessible online and on a phone app

All screenshots taken from already developed MVP

Market

We target the 'Intermediate Plateau': Learners who have outgrown beginner apps and are ready to consume foreign language texts.

We first start by targeting **international students** in Milan ~ **22,000** students.

Business model: Freemium Micro-SaaS

Free Tier	€ 2.99/Month Tier
✓ Unlimited instant Translations. ✓ Up to 5 verb conjugations/day.	✓ Unlimited instant Translations. ✓ Unlimited verb conjugations. ✓ Personalized Spaced Repetition Dashboard. ✓ Cross-device cloud sync.
Creates a zero-friction acquisition funnel and drives organic, word-of-mouth growth.	Converts our most active users into Monthly Recurring Revenue

Competition

Extension	Translations	Instant Conjugations	Spaced Rep System	Paid Tier Price
In-Browser Google Translate	✓	✗	✗	Free
Mate Translate 1,000,000 Users	✓	✗	✗	€5.00/month
Reverso 300,000 Users	✓	✗	✓	€6.50/month
ConjuMate	✓	✓	✓	€2.99/month

Team

Raunak Sharma – Lead Developer & CEO

- MSc Finance – Bocconi University, Italy (April 2026)
- Former M&A Analyst @ Aurigininc.com
- Solo developed the ConjuMate MVP

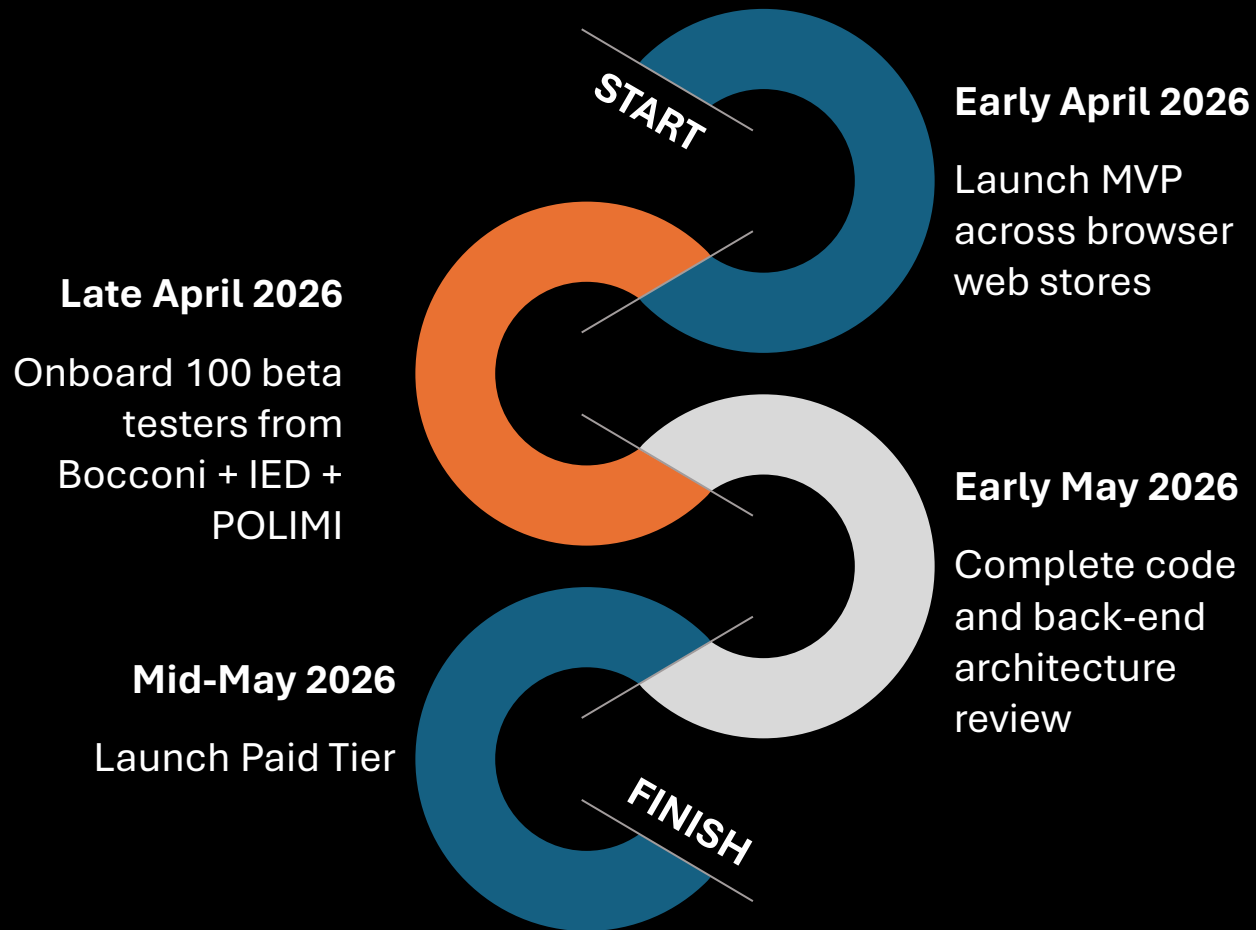

Mariana Bruno – Marketing & UI Design Lead

- BA Fashion Styling & Communication – IED, Italy (July 2026)
- Co-Founder & Art Director of FAR Magazine - <http://bit.ly/3NaowQE>

As **international** students in Milan, we built ConjuMate to **solve** the exact bottlenecks **we faced** learning Italian.

Next steps : MVP is ready

€ 2000 Grant allocation:

- 30% (€600): **Server** & **API** costs for our first few months of **beta** testing.
- 40% (€800): Technical Audit. **Hiring** a freelance senior developer for a one-time security and architecture **review** before paid launch.
- 30% (€600): Go-To-Market & Admin. Funding initial student outreach (Milan target market) and basic **GDPR**/legal compliance.

A New **Workflow** for **Language** Learners
